- Process Automation

Engineering and Automation

Our engineers provide consulting, feasibility studies, project documentation for tenders, basic and detailed engineering, technical and technological audits. We deliver automation solutions based on PLC and SCADA. We manufacture PCC, LCC and pneumatic cabinets.

Our effective project management ensures that the project runs on time and within the budget, meets all service level commitments, keeps the team motivated and is focused on performance and successful realization. Customer satisfaction is our goal.

Technical support

Our comprehensive after sales service provides immediate and effective support as we understand service as the key to our success.
