

Inline Aeration/Oxygenation

Automatic Unit

For instant wort aeration/oxygenation

- Micro bubble size
- Instant saturation
- O₂ analyzer controlled

Application

Brewing yeast needs oxygen to multiply. While insufficient aeration results in reduced yeast reproduction, overdosing may cause the formation of undesired substances and wort foaming. Therefore, controlled wort aeration is required for a consistent fermentation rate and constant product quality.

Designed for fast and accurate injection and dissolution of air or oxygen, Bucher Denwel provides a fully automated solution for continuous wort aeration.

Principle

Oxygen or Air is injected into the wort through Bucher Denwel Injector, which splits the gas into micro bubbles. Most efficient and instant saturation of the gas is achieved with only a minimal pressure drop, no gas loss and a fully hygienic design. No static mixer or sinter candles needed. The injected gas can be cleaned and sterilized by micro and sub-micro sterile filters.

An inline O_2 analyzer continuously monitors the O_2 concentration. The output signal is processed by the PLC to control the O_2 dosing. A high precision control valve accurately adjusts the injection, avoiding any over- or under- aeration/oxygenation.

Technical data

Air addition:	up to 15 ppm (P & T dependent)			
O ₂ addition:	up to 25 ppm (P & T dependent)			
Pressure:	operating 2 to 5 barg, 30 to 72 psig			
Temperature:	operating 0 to 15 °C, 32 to 60 °F			
CIP:	2 to 5 barg, 30 to 72 psig; max. 90 °C, 200 °F; Steam 140 °C, 286 °F			
Connection:	Tri-clamp; other connections upon request			
Dimensions:	from Height 1,9 m, 6,2′; Width 2,0 m, 6,5′; Depth 0,6 m, 2′			
Weight:	from 100 kg, 220 lb			
Material:	Stainless Steel 304, EPDM, PSU, PP			
Models:	Aeration DASxxxA; Oxygenation DOSxxxA; Aeration and Oxygenation DOAxxxA

Products

We develop and produce a wide range of specialized equipment and provide engineering solutions dedicated to help brewers to optimize their processes.

Combining experience and innovation we supply brewing equipment such as Filtration systems, Yeast plants, Water Deaeration, Blending, Carbonation, Dosing and Hard Seltzer systems, Dealcoholisation, CIP, Cold sterilisation, Flash Pasteurization and Beer tanks.

Services

We have a global presence. Our sales and service network is always available for you to provide consultancy, technical support and after sales service.
