Advanced Process Solutions

EKATO FLUID

Founded in 1982, FLUID has specialized in the manufacture of industrial agitators with shaft diameters of up to 100 mm. These can be delivered on short notice, are very economical and can be used in many different industries.

EKATO RMT

Since 1933 EKATO has optimized and further developed all aspects of mixing technology for fluids. EKATO's expertise includes all stages from planning to start-up of process plants as well as comprehensive support by our customer service department.

EKATO SOLIDMIX

Emerged from a business area of EKATO RMT beginning 2004, delivers complete units and modules for mixing, drying, granulation, humidification and agglomeration for the chemical, pharmaceutical and food industries.

EKATO UNIMIX

Since its founding in 1896 has become one of the most important companies in the area of mixing technology for the cosmetic, pharmaceutical, chemical and food industries. UNIMIX plans and manufactures complete mixing units including computer-based process control systems.

EKATO ESD

Since 1948 EKATO has specialized in the development and manufacture of optimized mechanical seals for process equipment, in particular for agitators of the EKATO Group.

The EKATO Group offers customer-oriented solutions for all branches of the process industries:

Chemical, plastics and polymers,
pharmaceuticals, biotechnology,
cosmetics, flue gas desulfurization,
inks, paints and lacquers,
hydrometallurgy, food technology.

With a turnover of 100 M € and 600 employees, the EKATO Group is the world's market leader in the area of process specific mixing.

High standard industrial agitators

Optimized mixing technology for all process industries

Machinery and complete units for processing bulks and solids

From a laboratory mixer to a custom-made production unit

Sophisticated seal systems for process equipment
